Palliativzentrum.....	51

# Kantonsspital St.Gallen – Publikationen

Am Kantonsspital St.Gallen wird klinische Forschung und translationale Grundlagenforschung auf hohem Niveau betrieben. Die Ergebnisse der Studien und Forschungsprojekte werden an wissenschaftlichen Kongressen präsentiert und in wissenschaftlichen Journalen publiziert. Um die Öffentlichkeit und die Fachwelt über die Forschungsaktivitäten am Kantonsspital St.Gallen zu informieren, werden die Publikationen in der Forschungs- und Studiendatenbank systematisch erfasst und ausgewertet ([www.forschung.kssg.ch](http://www.forschung.kssg.ch)).

Im Jahr 2018 wurden 438 Publikationen mit Beteiligung von Forschenden des Kantonsspitals St.Gallen veröffentlicht. Von diesen Arbeiten wurden 365 in Journalen mit berechnetem Einflussfaktor (auch Impact Factor genannt) publiziert (Abb. 1). Der Einflussfaktor einer Fachzeitschrift gibt an, wie oft ein Artikel aus dieser Zeitschrift von anderen Forschenden zitiert wird. Für die Berechnung des mittleren Einflussfaktors der Publikationen des Kantonsspital St.Gallen, wurden Daten des Journal Citation Reports aus dem Jahr 2017 verwendet.

Mit 365 wissenschaftlichen Arbeiten in Zeitschriften mit Einflussfaktor, wurde das beste Resultat seit der Erfassung dieser Daten erzielt. Besonders erfreulich ist, dass der mittlere Einflussfaktor pro Publikation auf 6.6 gestiegen ist. In Abb. 2 sind die Daten der Jahre 2016-2018 gezeigt.

Die Auswertung der Publikationsdaten nach Medizinischen Departementen zeigt, dass in allen Disziplinen intensiv geforscht und publiziert wird. In Abbildung 3 ist die Publikationstätigkeit der Jahre 2016 – 2018 in den einzelnen Departementen gezeigt. Detaillierte Auswertungen können beim Medizinischen Forschungszentrum (MFZ) angefordert werden. Durch interdisziplinäre Zusammenarbeiten sind die Summen der Publikationen höher als jene aus Abb. 1 und 2.

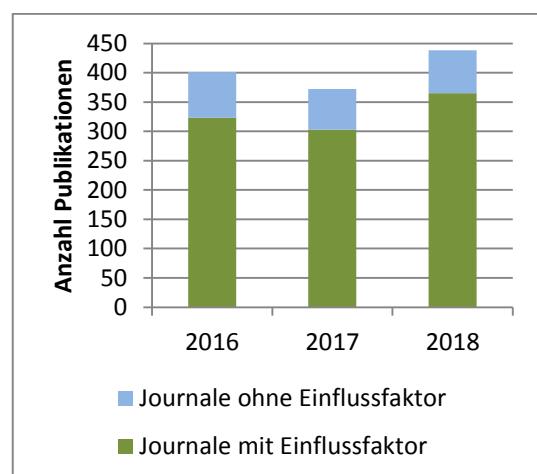

Abb.1. Anzahl der Publikationen in Journalen mit oder ohne Einflussfaktor in den Jahren 2016 – 2018

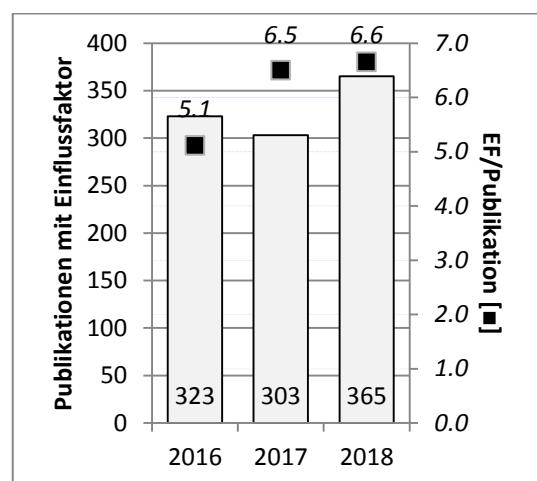

Abb.2. Mittlere Qualität der Publikationen gemessen als durchschnittlicher Einflussfaktor (EF) pro Veröffentlichung

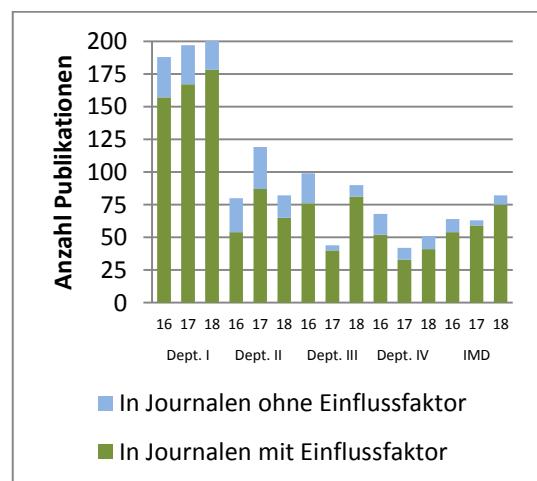

Abb. 3. Publikationsstatistik in den Departementen I-IV und IMD in den Jahren 2016 – 2018

Die Publikationen wurden direkt aus der Forschungs- und Studiendatenbank des KSSG extrahiert ([www.forschung.kssg.ch](http://www.forschung.kssg.ch)). Für die Vollständigkeit und Richtigkeit der Publikationen in der Datenbank tragen die Fachbereiche die Verantwortung. Durch Anklicken des Bereichs/Instituts wird man direkt auf die Publikationen in der Datenbank verlinkt.
